

Paige Newcomer, R.N.

Paralegal

About Paige

With a degree in Applied Health Science from Bowling Green State University and an RN license, Paige brings a rare combination of clinical expertise and legal support skill to her role as a paralegal. Her nearly decade-long career in the operating room and in pre- and post-operative care gives her firsthand insight into medical procedures, terminology, and patient records that few paralegals possess. This background allows her to read and interpret medical charts, identify inconsistencies, and understand the clinical nuances of a case with a level of precision that directly strengthens case preparation.

During college, Paige gained additional experience working in medical records at ProMedica, building early skills in healthcare documentation, confidentiality, and client-focused service. These experiences, paired with years in high-pressure surgical environments, shaped her into a highly organized, detail-oriented professional who thrives under pressure and values teamwork. She believes a positive attitude and collaborative mindset are essential to delivering strong outcomes, whether in the operating room or the courtroom, and she brings the same eagerness to learn and grow to her legal work as she did throughout her nursing career.

Outside of work, Paige enjoys spending time with family and staying active through tennis, running, and travel, pursuits that reflect the same discipline and energy she brings to her professional life.

Education

Bowling Green State University, Bachelor of Science, Applied Health Science
